

ECONOMIC BENEFITS OF AN AGROFORESTRY SYSTEM

Agroforestry improves the livelihoods of farmers and their families by providing economic benefits that can be invested in housing, livestock, and education for children.

- 1 Animal fodder
- 2 Food produce - banana, palm tree, vegetables, etc.)
- 3 Cash crop - monetary revenues from coffee
- 4 Fibre - resources for clothes and textiles
- 5 Timber - material for construction and firewood
- 6 Medicine (herbs, bark,...)
- 7 Mulching material from leaves and pruning
